## Nokia, BSNL to roll out 4G, VoLTE services

### INDO-ASIAN NEWS SERVICE

New Delhi, February 26

Nokia and BSNL have signed a network modernisation agreement to support BSNLs launch of 4G and Voice over LTE services in western and southern regions of India, an official said.

Nokia would deploy the technology in 10 telecom circles — Maharashtra, Gujarat, Madhya Pradesh, Chhattisgarh, Goa, Tamil Nadu, Andhra Pradesh, Karnataka, Kerala and Telangana — serving large cities, busi-

nesses, technology and tourist hubs besides nearly 38 million BSNL subscribers, an official statement here said.

“Hunger for consistent change and innovation provides the fuel to drive us towards excellence. With this in our core, we are striving to offer the best in class network speed, coverage and capacity using the best technology available,” said Anupam Shrivastava, Chairman and Managing Director of BSNL.
